Always wear your seat belt, and please don't drink and drive.
OPEN UP a bigger, bolder world. Get there in a redesigned crossover that brings an aggressive new look to consistent capability. Gain confidence with new intelligent safety tech that keeps an eye out on every part of your drive. Load up in a snap with an interior that adapts for adventure. Where to? Call up directions, friends, and your favourite driving jam at the touch of a button. The new 2017 Nissan Rogue: Slide into gear and explore a life of POSSIBILITIES.
Create some best-in-class envy  Go ahead and demand more. Rogue® delivers, with best-in-class front head room¹ and the supreme comfort of fatigue-reducing Zero Gravity front seats. There’s a 2nd row that slides and reclines,² so you can adjust for maximum leg room, more cargo space, or anywhere in between. And with available tasteful touches like a heated steering wheel, two-tone interior trim, Power Panoramic Moonroof, and leather-appointed seats with quilted inserts, this is one natural, relaxed, and decidedly upscale environment.

¹Based on Global Automakers of Canada (GAC) Compact SUV Market Segmentation. ²MY17 Rogue® vs 2016/2017 Compact Sport Utility Class sourced from Autodata on September 23, 2016. ³Slide forward function should not be performed with the Child Restraint System occupied. ⁴Power Panoramic Moonroof, and leather-appointed seats with quilted inserts are available. ⁵Provincial laws may apply; review local laws before using.

Nissan Rogue® SL Platinum shown in Platinum Reserve Tan Leather.
YOU’VE GOT AN ALL-ACCESS PASS

Nissan Motion Activated Liftgate Now you’ve got easier access to your Rogue® than ever before. Hands full? Just kick under the rear bumper to automatically open the available Motion Activated Liftgate, without reaching for a key or juggling armfuls of stuff.

EZ Flex® Seating System This 2nd row is truly accommodating, thanks to Rogue’s EZ Flex Seating System. It slides forward for easy access and adjusts to give you a little more cargo space, more leg room or anywhere in between. The seats also recline, so you can be exceptionally comfortable.2

3rd Row Perfect when you need to transport the team or bring extra friends along. Rogue’s available 50/50 split folding 3rd-row seat gives you added flexibility carrying passengers and their gear, and folds down to make a flat cargo floor for maximum carrying space.

Nissan Intelligent Key® With the available Nissan Intelligent Key, you can open your Rogue and activate the Push Button Ignition without reaching for your keys. And with Remote Engine Start,3 you can get your Rogue running before you even step inside.

Room for craft and crew With best-in-class cargo space and room for an object up to eight feet long, Rogue gives you possibilities you never knew you had. And with a clever folding rear seat pass-through, there’s plenty of room to bring friends along.5

DIVIDE-N-HIDE®

Single-handedly reinventing capability, the Divide-N-Hide® Cargo System lets you adapt in a snap. An adjustable set of shelves and dividers gives you a variety of configurations. It’s so easy, you can do it with one hand.

UNDER WRAPS Make a “box” that keeps valuables out of sight and creates a shelf on top!5

THE LAYERED LOOK Create an open space for storage underneath, and a handy shelf to keep other items separate and within easy reach!5

SECRET SPOT A long, flat floor for big items, with under-floor storage for things you want to hide!5

THE LOWDOWN Lower your floor for added height to fit those tall items.9

1 Slide forward function should not be performed with the Child Restraint System occupied. Please ensure child is seated properly before using. Based on Global Automakers of Canada (GAC) Compact SUV Allocation Share. MY17 Rogue® in 2016/2017 Compact Sport Utility Class sourced from Autodata on Autodata.
2 Provincial laws may apply; do it with one hand.
3 Under electric conditions. Hands free feature cannot be used when Child Restraint System occupied.
4 Cargo shown for display purposes only. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Heavy loading of the vehicle with cargo, especially on the roof, will affect the handling and stability of the vehicle.
5 Room for craft and crew and room for an object up to eight feet long. 50/50 seat pass-through, there’s plenty of room to bring friends along.
Chill out while you warm your buns  Inspired design, available Bose® Premium Audio System and double-stitched leather – Rogue® is a nice place to be. Add in details like Quick Comfort® heated front seats that focus on key areas to warm you up as soon as possible, and you’ll find it’s toasty too. There’s even available Dual Zone Automatic Temperature Control (ATC) and a power passenger seat so your co-pilot can have things just the way they like it.

Advanced Drive-Assist® Display  From trip computer to turn-by-turn directions, the Advanced Drive-Assist Display serves up info right in front of you – helping to minimize time looking away.1,2,3

1 Driving is serious business and requires your full attention. If you have to use the feature while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. 2 Information displayed is dependent on how vehicle is equipped. 3 Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. 4 Availability of specific features is dependent upon the phone’s Bluetooth® support. Please refer to your phone Owner’s Manual for details. Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under licence. See Nissan.ca/bluetooth for details. 5 TPMS is not a substitute for regular tire pressure checks. Bose® is a registered trademark of The Bose Corporation.
PERFORMANCE FOR EVERY DAY, POWER FOR YOUR NEXT ADVENTURE

Rogue’s efficient 4-cylinder engine and Continuously Variable Transmission help ensure exceptional highway fuel economy, along with amazingly smooth power delivery as you breeze past the pump. And with Eco Mode, saving has never been simpler. Push the dash-mounted button, and Rogue automatically adjusts to help further improve your fuel economy.

WHETHER IT’S RAIN, SLEET, OR TURN OF ROAD

Intuitive All-wheel Drive (AWD) It’s so responsive, it can adapt to changing conditions 30 times faster than the blink of an eye. Snow, rain-covered pavement or tight turn, the system automatically sends power to the wheels that need it most. Even in ideal conditions, Rogue’s available AWD pays big dividends – our passionate engineers also tuned the system for responsive, agile performance. Getting a grip has never been more fun.

Confidence-inspiring Dynamic Technologies whether it’s stop-and-go traffic, your favourite on-ramp, or even just an annoying speed bump, Rogue uses advanced technology to make every drive feel more comfortable, confident, and enjoyable. And that’s a beautiful thing.

Active Engine Braking As you’re slowing for a corner or coming to a stop, this system uses the CVT transmission to apply engine braking. Much like shifting to a lower gear in traditional transmissions, it helps give smoother deceleration and a more confident feel when braking.

Active Trace Control A turn for the better. This innovative technology helps improve control when you take a corner. It reads the situation and, if needed, can brake each wheel individually to help you steer through the turn with confidence.

Active Ride Control What bump? Active Ride Control smooths them out by automatically applying braking and adjusting engine torque.

Vehicle shown with optional accessory equipment.

Average 33.0 MPG

1/2017 7.0 L/100 km (40 MPG) highway for Rogue® FWD. Actual mileage may vary with driving conditions – use for comparison only.
What if parallel parking was easier? A rearview monitor is great when backing up—but when it comes to parking, it’s nice to see more than just what’s behind you. That’s why Rogue offers the available Around View Monitor. Four cameras give you a virtual 360° bird’s-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look. And since all obstacles aren’t stationary (shopping carts, we’re talking to you), Moving Object Detection keeps an eye around your Rogue and can warn you about moving objects detected in your vicinity.

With both MOD and a rearview monitor, you can park with confidence. MOD operates at vehicle speeds below 8 km/h. Always check surroundings before moving vehicle. A VM with MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 8 km/h. Always check surroundings before moving vehicle.

NISSAN AROUND VIEW® MONITOR

360 WAYS TO MAKE PARKING EASIER THAN EVER

NISSAN INTELLIGENT CRUISE CONTROL

SET IT ONCE AND GO WITH THE FLOW

Unlike traditional systems that only maintain a set speed, Rogue’s available Intelligent Cruise Control also helps maintain an adjustable set distance between you and the car in front of you. As traffic slows down or speeds up, Rogue can respond accordingly.¹

NISSANCONNECT® SERVICES POWERED BY SIRIUSXM®

MEET YOUR ENTOURAGE

Let our people look after you and your people. With available NissanConnect Services, you have a selection of plans that give you additional peace of mind, along with added convenience and comfort.²
What if you had the confidence you need for every part of your drive? The Nissan Safety Shield philosophy is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

**MONITOR**

Smart technologies are designed to help monitor conditions. Like a warning to let you know when a vehicle is in the blind spot area, or a system that helps ensure you’re travelling on properly inflated tires.

**Available Features:**
- Forward Emergency Braking (FEB) with pedestrian detection
- Blind Spot Warning (BSW)
- Rear Cross Traffic Alert (RCTA)
- Lane Departure Warning (LDW) and Lane Departure Prevention (LDP)
- Moving Object Detection (MOD)

**Tire Pressure Monitoring System (TPMS)** with class-exclusive Easy-Fill Tire Alert

TPMS lets you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you’ve reached the correct pressure.

**RESPOND**

Whether you need to hit the brakes hard or manoeuvre around an unexpected obstacle, these standard technologies help you respond to a potentially hazardous situation.

- **Vehicle Dynamic Control (VDC)** helps you maintain your steered path.
- **Traction Control System (TCS)** helps reduce wheelspin in low-traction situations.
- **Anti-lock Braking System (ABS)** helps you maintain steering control around obstacles while braking heavily.
- **Electronic Brake force Distribution (EBD)** sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.
- **Brake Assist** helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

**PROTECT**

When a collision is unavoidable, Nissan’s Zone Body construction helps absorb the impact while the advanced seat belt and airbag systems help protect passengers.

- **Six Standard Airbags**
- **Traction Control System (TCS)**
- **Vehicle Dynamic Control (VDC)**
- **Anti-lock Braking System (ABS)**
- **Electronic Brakeforce Distribution (EBD)**
- **Traction Control System (TCS)**
- **Vehicle Dynamic Control (VDC)**

**LATCH System (Lower Anchors and Tethers for Children)**

Available features. **FEB with pedestrian detection is not a replacement for responsible driving. May not provide warning when encountering certain conditions, circumstances apply. See Owner’s Manual for details.** 

**Tire Pressure Monitoring System (TPMS) with class-exclusive Easy-Fill Tire Alert**

TPMS lets you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you’ve reached the correct pressure.

**Get Away with Just a Warning**

**Forward Emergency Braking (FEB) with Pedestrian Detection**

This system keeps an eye on your speed and proximity to the vehicle ahead of you, warning you if you need to slow down. It can also apply braking if you fail to respond. If a collision is unavoidable, this feature will engage the brakes to help reduce the speed and severity of impact. And if a pedestrian is detected at a crosswalk, this system will alert you, even fully applying the brakes if necessary.

**Blind Spot Warning (BSW)**

When the Blind Spot Warning system detects another vehicle in the blind spot area, an indicator appears in the driver’s or front passenger’s door pillar and on the available Advanced Drive-Assist® Display. Then, if you put your turn signal on, the indicator flashes with a warning chime.

**Rear Cross Traffic Alert**

When you’re backing out of a parking space, this available feature watches the area around the rear of your Rogue, and can warn you about detected vehicles you might not see behind you approaching from either side.

**Lane Departure Warning (LDW) and Lane Departure Prevention (LDP)**

When you unintentionally drift out of your lane, Lane Departure Warning alerts you with a visual warning on the display and an audible signal. And if you continue to stray from your lane, Lane Departure Prevention can help gently guide you back.

**Moving Object Detection (MOD)**

When the Around View® Monitor is in use and detects moving objects near the vehicle, it gives you a visual and audible alert.

**Snug kids!**

Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissan vehicles. The result: an industry-first, The Snug Kids Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at Nissan.ca/en/owners
CHOOSING YOUR TRIM LEVEL

5

• 2.5-litre DOHC 16-valve 4-cylinder engine
• Available intuitive All-wheel Drive (AWD)
• Intelligent CVT® (Continuously Variable Transmission) with Sport Mode Shifter
• Eco Mode
• Hill start assist
• Active Trace Control, Active Engine Braking, Active Side Control
• 17" x 7.0" steel wheels with wheel covers
• LED Daytime Running Lights
• LED taillights
• Power heated outside mirrors with LED turn signal indicators
• Advanced Drive-Assist® Display
• USB connection port for iPod® interface and other compatible devices
• Bluetooth® Hands-Free Phone System®
• SiriusXM® Satellite Radio®
• Audio system with AM/FM/CD and 107.7 mm (4.2") colour display
• Rearview Monitor
• Quick Comfort® heated front seats
• Divide-N-Hide® Cargo System
• EZ Flex® Seating System with 2nd-row split-folding/sliding/reclining bench seat with pass-through
• Nissan Advanced Airbag System
• Tire Pressure Monitoring System (TPMS) with individual tire pressure display and Easy-Fill Tire Alert

3V INCLUDES 5 EQUIPMENT PLUSH

• 17" x 7.0" aluminum-alloy wheels
• Auto-off/hi-headlights
• Fog lights
• Roof rails
• Rear privacy glass
• Chrome outside door handles
• Nissan Intelligent Key® with Push Button Ignition
• Remote Engine Start System
• 6-way power driver’s seat with power lumbar
• Retractable cargo cover
• Plus two speakers (six total)

KEY AVAILABLE PACKAGES:

• SV Package
• SV Technology Package
• SV Family Package

SL PLATINUM INCLUDES SV EQUIPMENT PLUS

• Standard Intuitive All-wheel Drive (AWD)
• 17" x 7.0" aluminum-alloy wheels
• Power Panoramic Moonroof
• Nissan Active Headlights
• LED headlights
