EVERY day brings new challenges and new opportunities. Be ready with a truck built to tackle whatever comes your way. With a 390 HP Endurance® V8. Up to 1,610 lbs. of payload. And up to 9,220 lbs. of maximum towing capacity. Along with the brawn, you’ve got brains, like an incredibly capable truck bed, advanced technology that redefines towing; and comfort and convenience that makes this one premium ride. The new 2017 Nissan TITAN: 24/7 it’s always on DUTY.

CANADA’S BEST TRUCK LIMITED WARRANTY
5-YEAR/160,000 KILOMETRES
BUMPER-TO-BUMPER LIMITED WARRANTY

Nissan TITAN® Platinum Reserve shown in Cayenne Red.

Maximum payload capacity when properly equipped. Maximum payload of up to 1610 lbs. for 2017 TITAN® S 4x4 Crew Cab and 2017 TITAN® SV 4x4 Crew Cab. Payload capacity varies by configuration. See Nissan Towing Guide and Owner’s Manual for additional information. 2

Maximum towing capacity when properly equipped. Maximum towing of up to 9220 lbs. for 2017 TITAN® S 4x4 Crew Cab with Accessory Tow Hitch Kit. Towing capacity varies by configuration. See Nissan Towing Guide and Owner’s Manual for additional information. 2

Claim based on years/kilometre coverage for Maritz 2016 Full Size Pickup Segmentation and Compact Pickup Segmentation vs. 2017 TITAN and TITAN XD. Nissan’s New Vehicle Limited Warranty basic coverage excludes tires, corrosion coverage, and emission performance and defect coverage (applicable coverage is provided under other separate warranties). Other terms and conditions also apply. See dealer for complete warranty details. Warranty claim is current at time of printing. Endurance® is a registered trademark of Cummins Inc.
The TITAN® Endurance V8 gas engine puts the strength of a technological powerhouse under your foot. With Direct Injection, a 4-valve-per-cylinder design, and a Variable Valve Event and Lift (VVEL®) technology for a solid 73 HP and 9 lb.-ft. of torque bump over the previous TITAN. Combined with active vent shutters in the front grille to reduce aerodynamic drag, fuel efficiency is substantially improved as well, making TITAN an excellent all-around performer.

ENDURANCE® V8 GAS ENGINE

5.6 L V8
390 HP
394 LB.-FT. OF TORQUE

VARIABLE VALVE EVENT AND LIFT TECHNOLOGY (VVEL®)
Hydraulically controlled variable valve timing combined with electronically controlled variable valve lift technology provides high performance and crisp response. Throttle response is enhanced by directly controlling the intake valve. A new Multi-Control Valve (MCV) allows the engine to warm up more quickly than with a traditional thermostat.

DIRECT INJECTION GAS (DIG™) TECHNOLOGY
Direct Injection Gas (DIG™) technology provides better wide-open throttle performance and improved fuel economy and emissions performance (versus a non-direct-injection system) by reducing engine knock, improving combustion stability, and offering precise injection control.

7-SPEED AUTOMATIC TRANSMISSION
Backing up this V8 powerhouse is a specially tuned 7-speed automatic transmission. With features including tow/haul mode and Downshift Rev Matching for reduced shift shock, it’s an ideal partner for the kind of hard work TITAN was engineered for.
TOW WITH CONFIDENCE

TITAN® starts with massive capabilities, including up to 9,220 lb. towing capacity. And when towing the big loads, you go with comfort and confidence, thanks to a new 7-speed automatic transmission featuring tow/haul mode with downhill speed control, available adjustable brake controller, and Trailer Sway Control (TSC).
BUILT ON A SOLID FOUNDATION
Strength comes from the core. So TITAN starts with a rugged chassis, including a fully boxed, full-length ladder frame. TITAN builds on that with a revised rear suspension, new 4-wheel ventilated disc brakes, and a beefed-up rear differential. While TITAN handles the rough stuff, interior comfort is enhanced with new hydraulic body mounts to help absorb noise and vibration in the cabin.

FULLY BOXED LADDER FRAME
Full-length, fully boxed ladder frame. Reinforced in key areas to help fight torsional twist.

ADVANCED REAR SUSPENSION
Revised spring rates for the rear leaf springs provide a more linear response for enhanced comfort and control. A new rear stabilizer bar adds to TITAN’s composure, while mono-tube shock absorbers help increase dampening force while maintaining a smooth ride.

FOUR-WHEEL VENTILATED DISC BRAKES
13.8" front/ 13.6" rear 4-wheel ventilated disc brakes help give the stopping power you need when carrying massive loads.

HEAVY-DUTY SUSPENSION
Reinforced double-wishbone front suspension. Large rear leaf springs and bushings help handle up to 1,610 lbs. of payload.1,2

1 Maximum payload capacity when properly equipped. Maximum payload of up to 1,610 lbs. for 2017 TITAN® S 4x4 Crew Cab and 2017 TITAN® SV 4x4 Crew Cab. Payload capacity varies by configuration. See Nissan Towing Guide and Owner’s Manual for additional information. 2 Bilstein shocks shown are only available on PRO-4X® model.
TOWING - NO HELP REQUIRED

Towing used to be a two-person job. But with innovative engineering, you can hook up and hit the road quickly and confidently, even when you’re on your own.¹

REMOTE TRAILER LIGHT CHECK

Once you’ve hooked up your trailer, you can easily check all trailer lights by cycling through the lights with your Nissan Advanced Drive-Assist® Display in the cabin.¹²

SPRAY-ON BEDLINER

TITAN’s tough bedliner is applied at the factory, ensuring you have a high-quality product. Designed for years of use and abuse, the bedliner helps protect your truck bed and your cargo.²³

OPEN FOR BUSINESS

The bed is why you buy a truck. Thoughtful design makes sure TITAN’s truck bed gives you the strength, capability, and flexibility you need.
All-terrain Tires
To help maximize grip, PRO-4X models feature beefy 275/70/18 tires with an aggressive off-road tread design.

Electronic Locking Rear Differential
when 4x4-LO isn't enough, this feature delivers equal power to both rear wheels to help boost traction and keep you moving forward.

Bilstein® Shocks
Developed exclusively for PRO-4X to provide a comfortable ride while helping provide outstanding response to driver input and changes in terrain.

4-wheel ABLS
Senses when a wheel begins to slip, then automatically brakes the slipping wheel(s) and sends additional power to the wheels with the best traction.

Hill Descent Control
Maintains speed and brake pressure to help provide a controlled descent.

Skid Plates
Next best thing to a suit of armour. Helps protect key components, including the radiator and transfer case.

CLIMBS, CRAWLS AND CONQUERS
Epic starts where the pavement ends. And with the new TITAN® PRO-4X® it’s never been more exciting, thanks to a truck-load of competition-grade equipment that reads like a serious off-roader’s wish list.
TITAN® rewards all on board, starting with a quieter ride, thanks to hydraulic body mounts, laminated side glass, improved door seals, and engine bay isolation. Front and rear Zero Gravity Seats – inspired by astronauts – simulate weightlessness to help reduce fatigue and stress while driving. Those in back are also looked after, with heated outboard rear seats and convenient locking under-seat storage. When the rear seat is not in use, the bottom flips up, and the cargo storage cover folds out to create a convenient flat loading floor.

HARD WORK HAS ITS REWARDS

- Fold-flat floor panels
- Lockable rear seat cargo organizer
- Zero Gravity leather-appointed seats
- Rockford Fosgate® Premium Audio
- Driver Memory System
- Remote Engine Start System
- Wood-tone Trim

Available feature. *Cargo shown for display purposes only. Cargo and load capacity limited by weight and distribution. Always secure all cargo. Rear Zero Gravity seats for outboard passengers only. **For市政协 may heavily relocate to all seats before using. Nissan TITAN® SL shown in Black Leather.
SMART DESIGN
BRILLIANT TECHNOLOGY

Space and innovation mean long-term appreciation of TITAN's interior. Relocating the shift lever to the steering column puts controls easily within reach and creates a huge centre console. The console lid even flips up – making easy access for driver and passenger alike. Little details make for everyday ease, like a glove compartment lever that's moved towards the centre for an easy reach.

NISSAN ADVANCED DRIVE-ASSIST® DISPLAY
INNOVATION THAT’S RIGHT IN FRONT OF YOU

From a dedicated off-road display to turn-by-turn directions, caller ID, and safety features, the Advanced Drive-Assist Display puts it all right before your eyes on its colour display. And it's easy to access, too — steering wheel controls let you toggle through the different screens.

• Off-road Status 1,2,3
• Auxiliary Gauges 1,2,3
• Turn-by-turn Navigation 1,2,3
• Tire Pressure Monitoring System 1,2,3,4
• Bluetooth® Audio2,3,4,5
• Driving Aids 1,2,3
• Compass 1,2,3
• Front and Rear Sonar System 1,2,3,4,5
• Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. "Virtual composite 360˚ view."

NISSAN AROUND VIEW® MONITOR
EYES IN THE BACK OF YOUR HEAD

NISSAN AROUND VIEW® Monitor revolutionizes how you work and play. Whether it's parking, hooking up a trailer, or off-roading in tight quarters, four cameras help give you a virtual 360˚ bird's-eye view of your vehicle, with selectable split-screen close-ups of the front, rear, and curbside views, so you can get a better look.

Remote Engine Start System with Intelligent Climate Control
NEVER GET IN A HOT OR COLD TRUCK AGAIN

On hot days, the Remote Engine Start System with Intelligent Climate Control can adjust temperature and airflow for a quick cool-down.1,10 On cold days, the system can adjust airflow to warm up the cabin, defrost windows and windshield, and even turn on the heated steering wheel and outside mirrors.1,10

The Advanced Drive-Assist Display also displays your phone’s caller ID, and safety features, the Advanced Drive-Assist Display puts it all right before your eyes on its colour display. And it's easy to access, too — steering wheel controls let you toggle through the different screens.

• Off-road Status 1,2,3
• Auxiliary Gauges 1,2,3
• Turn-by-turn Navigation 1,2,3
• Tire Pressure Monitoring System 1,2,3,4
• Bluetooth® Audio2,3,4,5
• Driving Aids 1,2,3
• Compass 1,2,3
• Front and Rear Sonar System 1,2,3,4,5

The Sonar System is a convenience, not a substitute for proper parking and/or backing procedures. Always check that it is safe to do so before moving vehicle. May not detect every object. Always check surroundings and turn to look behind you before moving vehicle. *Virtual composite 360˚ view. *Provincial laws may apply; review local laws before using.

NissanConnect with Navigation:1,2 Never miss a beat with TITAN’s advanced navigation system with connected technology.3 Use Voice Recognition and Online Search with Google® while you’re driving.1,4 Bluetooth® hands-free calling5 and the hands-free text messaging assistant6 keep you in touch in the smart way. Bring your own music with Bluetooth® streaming audio,3,5 and owner consent to activate. Certain services, including Google® Points of Interest and/or Google® Send to Car, provided by independent companies not within Nissan’s control. Should service provider terminate/restrict service, service may be suspended or terminated without notice and with no liability to Nissan or its agents. Nissan not responsible for any equipment replacement or upgrades, or associated costs, that may be required for continued operation due to service changes. - Availability of specific features is dependent upon the phone’s Bluetooth® support. Please refer to your phone’s OWNER’S MANUAL for details. - Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under licence. - Use the text messaging feature after stopping your vehicle in a safe location. - Driving is serious business. Only use NissanConnect SM Services powered by SiriusXM® and NissanConnect SM Mobile Apps when safe to do so. NissanConnect SM Services and Mobile Apps availability, is dependent upon the phone’s Bluetooth® support and availability. - Never program while driving. GPS mapping may not be detailed in all areas. - Where the road takes you, NissanConnect Services, you have a selection of plans and services ranging from remote start access on your phone to calling for help if the system senses there’s been an accident. Hey, that’s what friends are for.1,3,9 - SiriusXM® Traffic even helps keep you on the go with live traffic alerts. 3,8 - Voice Recognition and Online Search with Google® are available for the connected device. - Use the Around View® Monitor when the vehicle is stationary. - Use your phone to calling for help if the system senses there’s been an accident. - Use this feature while driving only if you are following a safe course of action. - Use this feature while driving only if you are following a safe course of action. - Vehicle types and models are subject to change. Always check the latest available information online at siriusxm.ca or call 1-866-635-2349. - In Canada, at time of writing, Canada and New Brunswick are not available. - In Canada, at time of writing, Canada and New Brunswick are not available. - In Canada, at time of writing, Canada and New Brunswick are not available. - In Canada, at time of writing, Canada and New Brunswick are not available. Copyright © 2023 Nissan Canada Inc. All rights reserved. - sonst. - BLIND SPOT WARNING is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every object in your blind spot. - Moving Object Detection (MOD) cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle.
What if you had the confidence you need for every part of your drive? The Nissan Intelligent Safety Shield philosophy is a comprehensive approach to safety that guides the engineering and development of every vehicle we make.

**MONITOR**

Smart technologies are designed to help monitor conditions, like a warning to let you know a vehicle might be in your blind spot area, or a system that helps ensure you’re travelling on properly inflated tires.

**Available Features:**

- **Blind Spot Warning (BSW)**
- **Rear Cross Traffic Alert (RCTA)**
- **Moving Object Detection (MOD)**
- **Tire Pressure Monitoring System (TPMS) with Easy-Fill Tire Alert**

TPMS lets you know when a tire is low. And Easy-Fill Tire Alert takes the guesswork out of filling your tires, with a beep of the horn when you’ve reached the correct pressure.

1 Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. **Available feature.**

2 RCTA is not a substitute for proper backing procedures. May not detect all moving vehicles. Speed and other limitations apply. See Owner's Manual for details.

3 MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 8 km/h. Always check surroundings and turn to look behind you before moving vehicle.

4 TPMS is not a substitute for regular tire pressure checks. Vehicle must be on for the Easy-Fill Tire Alert to operate. 

5 Vehicle Dynamic Control (VDC) helps you maintain your steered path.

6 Traction Control System (TCS) helps reduce wheelspin in low-traction situations.

7 Anti-lock Braking System (ABS) helps you maintain steering control around obstacles while braking heavily.

8 Electronic Brake force Distribution (EBD) sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

9 Brake Assist (BA) helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.

**PROTECT**

When a collision is unavoidable, Nissan's Zone Body construction helps absorb the impact while the seat belt and airbag systems help protect passengers.

**Six Standard Airbags**

- Single-stage driver and dual-stage front passenger supplemental airbags
- Front seat-mounted side-impact supplemental airbags
- Roof-mounted curtain side-impact supplemental airbags with rollover sensor

**LATCH System**

(Nissan safety engineers have dedicated thousands of hours to evaluating hundreds of child restraints in Nissan vehicles. The result: an industry first, The Snug Kids Child Safety Seat Fit Guide. This guide lists child seats that fit the rear seats of Nissan vehicles, as well as offers invaluable tips on correct installation. Look for the latest Fit Guide at Nissan.ca/en/owners)

**NC_17TTNb_18-19_EN_r4.indd** 18
10/22/16 8:31 AM

**RESPOND**

Whether you need to hit the brakes hard or manoeuvre around an unexpected obstacle, these standard technologies help you respond to a potentially harmful situation.

10 Vehicle Dynamic Control (VDC) helps you maintain your steered path.

11 Traction Control System (TCS) helps reduce wheelspin in low-traction situations.

12 Anti-lock Braking System (ABS) helps you maintain steering control around obstacles while braking heavily.

13 Electronic Brake force Distribution (EBD) sends extra force to the rear brakes when you have additional weight of passengers or cargo in the back.

14 Brake Assist (BA) helps apply maximum braking force if it detects hard braking and senses you are in an emergency situation.
